## DAILY ROUTINE

---

### A. M.

- 6.00. Rising Bell.
  - 6.30. Breakfast.
  - 7.30. Study Hour.
  - 8.00. Inspection of Rooms.
  - 8.30. Chapel.
  - 9.00 to 9.45. First Recitation.
  - 9.45 to 10.30. Second Recitation.
  - 10.30 to 11.10. Third Recitation.
  - 11.10 to 11.50. Fourth Recitation.
  - 11.50 to 12.00. Chapel.
- 

### P. M.

- 12.00 to 1.00 p. m. Noon Recess.
- 1.00 to 1.40. Fifth Recitation.
- 1.40 to 2.20. Sixth Recitation.
- 2.30 to 4.30. Industrial Work.

## FACULTY

---

ALFRED J. GRIFFIN, A. M., PRINCIPAL  
*History, Mathematics, Etc.*

EDWARD E. CURTRIGHT, A. B., REGISTRAR  
*English, Education, and Latin*

MRS. OPHELIA T. GRIFFIN, MATRON  
*Domestic Science, and Supervisor of All Industries for the Girls*

HERBERT E. HOLLOMAN, B. S.  
*Mathematics, Physics, and Carpentry*

JULIA E. BUMRY  
*English Grammar, Chemistry, and Botany*

SHEPARD S. WHITTED  
*Arithmetic, History, and Masonry*

SILAS E. MILES  
*Fifth Grade and Blacksmithing*

MRS. SUSIE B. CURTIS  
*Fourth Grade and Sewing and Dressmaking*

BERTHA M. FITTS  
*Third Grade and Music*

MAGGIE M. BROOKS  
*Second Grade and Assistant Matron*

LILLIAN G. DANCY  
*First Grade and Secretary to the Faculty*

GARLAND A. GERRAN, M. D.  
*Attending Physician, Lecturer on Hygiene and Physiology*

## GENERAL INFORMATION

The High Point Normal and Industrial Institute was located at High Point in 1890. It is under the care of the Southern Committee of the New York Yearly Meeting of the Religious Society of Friends.

### LOCATION

The location of the High Point Normal and Industrial Institute is very advantageous. High Point is about 1,000 feet above the sea level. This gives it an especially healthy and delightful climate. The air is fresh and invigorating, never too sultry for study. High Point is on the main line of the Southern Railway and is accessible from any part of the South. The school is situated apart from the business section of the city about one half mile from the railway station. Beautiful shade trees adorn the campus of about five acres, which is carefully laid off in walks and driveways. The abundance of shrubbery makes the school one of the most beautiful and attractive places in the city.

### BUILDINGS AND GROUNDS

The school buildings are almost all modern constructions of brick. They are all well lighted with electricity and are kept in good repair by the industrial department.

### CONGDON HALL

Congdon Hall is situated in the center of the campus. It was erected in 1899 through gifts of generous friends and was built by our students. It is a three-story brick building, seventy-five feet by forty feet. It is a pleasant dormitory and accommodates about sixty girls and five lady teachers. It is supplied with a system of sanitary plumbing with hot and cold water. The school kitchen, dining hall, training kitchen, sewing room, music room, library, and parlor are located in this building.

#### THE ACADEMIC BUILDING

The Academic Building is also a large modern brick construction, the product of student labor. Erected in 1909, it stands a short distance to the east of Congdon Hall. It is a three-story building seventy-five feet long and forty feet wide. It is devoted to academic and administration purposes, containing the administration offices, recitation rooms, and a large and well lighted assembly hall.

Connected with the academic building is a three-story annex used as a dormitory for the boys. It is heated by means of hot air furnaces and is also provided with hot and cold water and bath tub and showers.

#### THE COTTAGE

The Cottage is a one-story frame building used as a dormitory for the boys. It is hoped that before a great while the Cottage will be replaced by a splendid and well equipped brick building for our boys.

#### THE PRINCIPAL'S COTTAGE

Nestled among beautiful oak trees and situated to one side of Congdon Hall stands the Principal's Cottage, a one-story frame building.

#### THE INDUSTRIAL BUILDINGS

The new Industrial Building was erected by our students in 1913. It is a one-story brick building seventy-five feet long and 20 feet wide. One-third of this building is devoted to the blacksmith shop and the other two-thirds to the bricklaying department.

The carpenter shop adjoins the main industrial building. It is also a one-story frame building thirty-five feet by twenty-five feet. It is well equipped with work benches and tools for models and repair work.

#### THE NEW LAUNDRY

The laundry is a splendid brick building fifty feet by twenty-five feet. It has sixteen stationary soap stone tubs,

a hundred gallon boiler for hot water. This provides accommodation for all the laundry of the school.

#### THE FARM

Connected with the school is a valuable farm of nearly one hundred acres. The cultivation of the farm is done by students who remain at the school during the summer months to provide a credit for the next school year. Upon this farm is raised mainly wheat, corn, potatoes, vegetables, all of which go to supply the needs of the boarding department.

There are one-half dozen cows to provide milk for table use, thorough bred Berkshire pigs, three mules and a horse.

#### SPECIAL ADVANTAGES

Literary Society. The students have an organization called the Ferris-Murray Literary Society, named in memory of the two men who gave so much of their lives to make the institution what it is today. The society meets every Friday evening. It gives the students excellent training in Parliamentary usage, oratory and debate. It undertakes to present light plays from time to time thus giving the members practice in ease in performance and dramatic ability. As it is carefully supervised by the faculty it is a vitally interesting society.

#### RELIGION

The school is non-sectarian in organization but is distinctly religious. A high moral standard is maintained. The Principal opens the day with prayer in the chapel, which service all the students are required to attend. A prayer service is held Wednesday and Saturday evenings, attended by the students and teachers. On Sunday morning the students assemble for Sunday School services superintended by a teacher. The classes are taught by members of the faculty.

The entire student body accompanied by the faculty attend church service in the city on Sundays when there is

no service held at the school. The students maintain three religious societies. The Y. M. C. A. meets every Sunday afternoon. It is led by competent leaders and is doing some efficient work in touching the lives of its members with the Christlike spirit. It is an enthusiastic group of energetic workers making the spirit of Christ a more vital reality in the school.

The young women of the institution also maintain a Young Women's Christian Temperance Union. This is a lively, interesting body of our girls. They meet on Sunday afternoons spending their hour in active temperance work and in missionary work in the community surrounding the school. During each meeting a part of the time is given to the study of Bible characters. The Matron meets with them helping them with their program and giving them talks for their own development.

Each Sunday evening the young women and young men of the school join services in a Christian Endeavor Society. This Society is supervised and especially encouraged by all the members of the faculty. They spend an hour in the study of the International Christian Endeavor Lessons. This society also attempts both foreign and practical home missionary work in a small way.

#### LIBRARY

Connected with the school is a small but growing library. The students are required to use it for reference and research work, thus opening to them a new field of literature. The standard authors of both fiction and non-fiction are found on its shelves. The school subscribes to many of the best magazines. These magazines are placed in the hands of the students. In every way the pupils are encouraged to broaden the intellect by extensive reading.

#### HYGIENE AND ATHLETICS

The school recognizes the value of Hygiene for the students. From time to time throughout the year the school physician gives lectures on the proper care of the body and

on general health. The boys have an active athletic association supervised by members of the Faculty. The school has good separate tennis courts for the boys and girls and a fine baseball diamond and football field for the boys. All students are required to pay upon entering school a **fee of fifty cents** towards the support of the athletic association.

#### HOW TO ENTER

Applicants seeking admission should write to the Principal for an application blank. This blank should be filled out in the applicant's own hand writing and returned with testimonials of good character. Those coming from other schools must present certificates of honorable dismissal. A card of admission will be sent to each applicant and must be presented at the Principal's office on reaching the school. All students should reach the school Wednesday, September 14th. Examinations of new students are held on the 15th. Any delay in entering the school hinders the progress of the student throughout the year and materially affects his chances of promotion at the end of the year.

#### AID TO NEEDY STUDENTS

A limited number of students are admitted each year to work during the day on the farm, in the laundry, in the boarding hall or school buildings and attend school at night. They are received on one month's trial and if accepted may enter into a formal contract with the school as to character of work, length of service, and amount of credit. Those seeking to enter this department must not be under 17 years of age. They must be in good health, must be provided with sufficient clothing and shoes for the year and **must pay on entering a fee of Five Dollars**. Labor credits are not payable in cash but are held by the school to meet future school bills.

Work students who leave the school before expiration of the term of one year (12 months) will forfeit their credit account unless satisfactory arrangements are made with the Principal.

### ADVISORS

Each student is assigned at the beginning of the year to a member of the Faculty who acts as an advisor upon matters which concern his or her adjustment and development. Each new student has also a senior advisor who is ready to introduce him or her to the new environments.

### REGULATIONS

Every effort is made to make the school an ideal home for the students. Regular and punctual attendance upon all duties, classes, and religious exercises is required.

All students are expected to do every day some definitely assigned work in the building or on the campus, and those who will not do this work satisfactorily become undesirable members of the school.

Whatever labor is contracted to be done as part payment on school bills must be done during the month or the amount due must be paid in cash.

Students are not expected to leave the campus at any time without permission and especially are all students prohibited from leaving the grounds at night.

Cleanliness of room and person is required and good order in the rooms and building must be observed at all times. The care of rooms will be a part of the monthly report.

No boisterous, loud talking or singing in the halls will be allowed. The removal of furniture or bedding out of the buildings or from one room to another without permission is prohibited.

Loud disrespectful language or insolence of any kind is not allowed.

Tobacco in any form, card playing, intoxicating liquors, and fire arms, are prohibited. Any student persisting in the use of tobacco can not remain.

All mail going or coming must pass through the matron's hands.

No obscene pictures will be allowed or indelicate postcards will be received or sent.

Girls are not allowed to correspond with any one except

parents or guardians save by special permission of parents or guardians.

Students must not write to parents or any one for food. This is strictly forbidden.

Too much time must not be allowed for laundry work therefore girls must not wear white dresses every day.

Girls are not allowed to receive visitors from outside persons without permission from the matron.

No visitors must be allowed in girls' rooms.

Girls are asked not to bring jewelry to the school, as the school will be in no way responsible for lost jewelry.

Students must make good all damage and breakage done to school property.

At ten o'clock all are to retire for the night. The buildings are lighted by electricity and no lamps will be allowed.

**Lights will be cut out at ten o'clock at night.** Upon retiring all talking will cease.

Students receiving five demerits for conduct are given first warning either at faculty meeting or before the whole school during chapel. Those receiving 15 demerits (three warnings) in any one term may be suspended or expelled.

#### SPECIAL REQUIREMENTS

Students must provide their own bedding: Three sheets, three pillow cases, blankets or quilts as many as he wishes, a pillow, towels, and a bag for soiled linen. The owner's full name must be plainly written with indelible ink on each article. In case of dark goods the name may be plainly written on white tape and stitched on the article.

Each student must have a comb, a hair brush, a tooth brush, cloth brush, and soap.

Each student must be provided with over shoes, winter wrap and umbrella. Girls must be provided with dark dresses for general wear, and ample changes of underwear and hosiery; also two colored aprons, sufficiently large enough to cover the entire skirt. These aprons are for general work.

Excessive dressing is prohibited. On all commencement

occasions girls are allowed to wear only white, washable dresses.

Every young woman expecting to graduate from the school must make her graduating dress in the sewing room under the supervision of the teacher of dress making.

All students expecting to graduate from the school must have had as a condition of graduation at least two years training at some trade in the industrial department of the school.

All boarding students are required to take some trade in the industrial department.

#### STUDY HOUR

In order to insure preparation of lessons a study period of two hours is held, under the supervision of the teachers each evening save Friday evening from 7.30 to 9.30.

All students are required to regard strictly the study hour according to the directions of the teachers in charge.

#### EXPENSES

Board, including furnished rooms, fuel, lights, laundry in cash, per month .....\$8.00

Girls are expected to do their own laundry.

Every student is required to do one and one half hours work extra each day.

Tuition for non-resident students, Grammar School, per month, 4 weeks .....\$1.00

Tuition for non-resident students, High School, per month, 4 weeks .....\$1.50

A laboratory fee of 50 cents per month of 4 weeks is required of all students taking Chemistry.

Each student is required to pay an athletic fee of 50 cents.

A fee of \$1.00 is charged of all students for the attendance of physician in case of any ordinary sickness. This fee is paid upon registration.

Students should be provided with sufficient money to buy medicine, as the school will in no way become responsible for medicine bills.

MUSIC

Piano instruction per month of 4 weeks, two lessons per week .....\$2.00

Use of piano for practice, per month ..... .50

Students should come prepared to purchase books and all necessary supplies for class room work.

HOW PAYMENTS ARE TO BE MADE

All payments must be made in advance.

Remittances for the payment of bills should be made by money order, draft, registered letters, or by express money orders. Make all money orders payable to the Registrar.

COURSES OF INSTRUCTION

ACADEMIC

JUNIOR CLASS

FIRST SEMESTER

High School Algebra  
Practical Exercises in English  
English Composition  
Short History of Ancient Times  
Physical Geography  
Latin

For the Boys:

Bricklaying, Plastering, Carpen-  
try, Blacksmithing, and Me-  
chanical Drawing.

For the Girls:

Plain Sewing, Dress Making, and  
Domestic Science.

SECOND SEMESTER

High School Algebra  
Practical Exercises in English  
English Composition  
Ancient History  
Civics  
Latin

For the Boys:

Bricklaying, Plastering, Carpen-  
try, Blacksmithing, and Me-  
chanical Drawing.

For the Girls:

Plain Sewing, Dress Making, and  
Domestic Science.

## JUNIOR MIDDLE CLASS

## FIRST SEMESTER

High School Algebra  
Rhetoric  
Medæval and Modern History  
Latin  
English Classics

For the Boys:

Bricklaying, Plastering, Carpen-  
try, Blacksmithing, and Me-  
chanical Drawing.

For the Girls:

Plain Sewing, Dressmaking, and  
Domestic Science.

## SECOND SEMESTER

High School Algebra  
Rhetoric  
Medæval and Modern History  
Latin  
English Classics

For the Boys:

Bricklaying, Plastering, Carpen-  
try, Blacksmithing, and Me-  
chanical Drawing.

For the Girls:

Plain Sewing, Dress Making, and  
Domestic Science.

## SENIOR MIDDLE CLASS

## FIRST SEMESTER

Plane Geometry  
American Literature  
English History  
Physics  
Latin—Cæsar

For the Boys:

Bricklaying, Plastering, Carpen-  
try, Blacksmithing, and Me-  
chanical Drawing.

For the Girls:

Plain Sewing, Dress Making, and  
Domestic Science.

## SECOND SEMESTER

Plane Geometry  
English Literature  
English History  
Botany  
Latin

For the Boys:

Bricklaying, Plastering, Carpen-  
try, Blacksmithing, and Me-  
chanical Drawing.

For the Girls:

Plain Sewing, Dress Making, and  
Domestic Science.

## SENIOR CLASS

## FIRST SEMESTER

Solid Geometry  
Chemistry  
Psychology  
College Requirements

For the Boys:

Bricklaying, Plastering, Carpen-  
try, Blacksmithing, and Me-  
chanical Drawing.

For the Girls:

Plain Sewing, Dress Making

## SECOND SEMESTER

Solid Geometry  
Chemistry  
Pedagogy  
Public School Methods  
College Requirements

For the Boys:

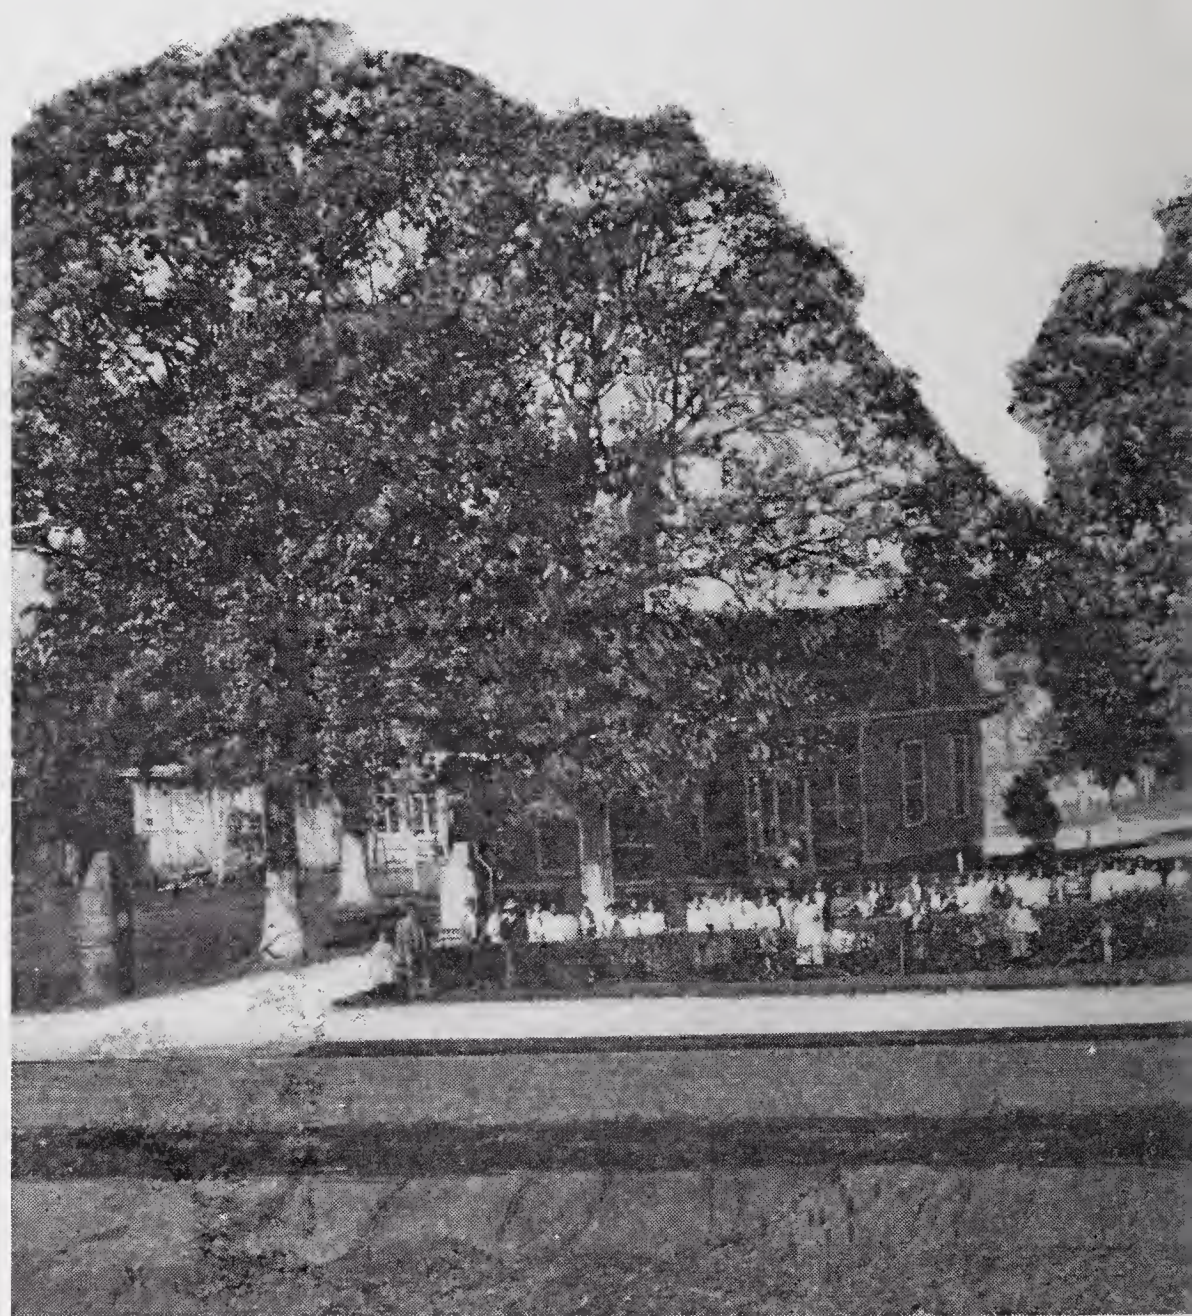

Masonry, Plastering, Carpentry,  
Blacksmithing, Etc.

For the Girls:

Dressmaking, Domestic Science

PRINCIPAL'S COTTAGE

SCHOOL BUILDING

INDUSTRIAL BUILDING

**GRAMMAR SCHOOL****FIRST YEAR**

Milne's Arithmetic, Book II.  
Language: Robbins and Row, Book I.  
Readers: Aldine, Book V; Free and Treadwell, Book V.  
Geography: Dodge's Primary.  
Spelling: Reed's Word Lesson.  
Writing: Palmer System.  
Drawing: Prang, Book V.

**SECOND YEAR**

Arithmetic: Milne's, Book II, Completed.  
Grammar: Robbins and Row, Book II.  
Readers: Aldine's Sixth Reader; Free and Treadwell's Sixth Reader.  
Geography: Dodge's Primary.  
Spelling: Reed's Word Lesson.  
Writing: Palmer System.  
Drawing: Prang, Book VI.

**THIRD YEAR**

Arithmetic: Milne's, Book III.  
Grammar: Robbins and Row, Book II.  
History: Our Republic.  
Readers: Aldine's VII; Free and Treadwell, Book VII.  
Geography: Dodge's Comparative.  
Spelling: Reed's Word Lesson.  
Writing: Palmer Method.  
Drawing: Prang, No. VII.

**FOURTH YEAR**

Arithmetic: Milne's Book III.  
Algebra: Milne's Elementary.  
Grammar: Robbins and Row.  
Elementary Composition.  
Spelling: Reed's Word Lessons.  
Elementary Agriculture.  
Writing.  
Drawing.

Students completing this course will receive a certificate from the Grammar School and will be admitted to the Academic Department.

Marks are given on a scale of 100, and are determined by combining the results of daily recitations and frequent oral and written tests. Seventy-five is poor and any student whose standing is below 80 is not considered doing good work.

### MUSIC DEPARTMENT

Unusual musical advantages are available to the students of the school. Recitals are given frequently by members of the Faculty and students of the Music Department. A certain amount of choral practice is required of every regular student. During the past year recitals were given by Miss Helen E. Hagen, the Williams Jubilee Singers, and other artists of note.

For some years past the school has had an excellent band of several pieces. We hope to give greater encouragement to the band this coming year.

The music department embodies a course of training, both in vocal and instrumental music.

The course in vocal music consists of sight reading, tone work, breathing, ear-training, scale study and chorus work.

The Course in instrumental music:

#### PRIMARY GRADE

Correct position and use of arms and fingers. Major scales. Technique and finger exercises of various kinds.

#### INTERMEDIATE GRADE

Major and Minor Scales. Czerney's Dexterity Op. 636, Arpeggios. Selections from Heller, Godard, Haydn, Moskowski, Technique.

#### ADVANCED GRADE

Czerney Velocity, Op. 299. Octave Study, Review of Major and Minor Scales, Chromatic Scales, General review of all Technic and the study of such pieces as Rustle of Spring, Singing Pierrett, by Chaminade; Bach's Preludes and Fugues.

---

### COOKING DEPARTMENT

#### FIRST YEAR

Lectures are given on general housekeeping, personal appearance, duty of class housekeeper, articles necessary for

each pupil. Study of parts of range, making fires, care of kitchen, sink, dish-washing, etc.

Tests are made for starches in cereals and other foods; cooking cereals, fruits, eggs, potatoes, and study value of same. Study and test of milk, butter and cheese. Making coffee, tea and cocoa. Lecture on each as to where grown, imported, etc. Cooking and study of meats, including beef, pork, poultry, fish and game. Cooking of various kinds of vegetables. Study and making of quick breads, pastry, pies, simple pudding and plain cake.

Special attention is given to general and practice work outside of class periods.

#### SECOND YEAR

Review of first year work. Study of flour, bread making, various kinds. Study of meats, different cuts, food value, prices, etc. Practice work in preparing and cooking various cuts; poultry, fish, oysters, flat fish and study of the same, seasons, etc.

Making soups, chowders, sauces, croquettes, salads, pies, cakes, jellies, setting tables, waiting, etc.

#### THIRD YEAR

Making out menus, calculating cost of various dishes and meals. Estimating time required in preparation.

A general review of various subjects, and more advanced and varied lesson in cooking. Special lessons in cooking fancy jellies, cakes, ices, candies, salads.

---

### DEPARTMENT OF SEWING AND DRESSMAKING

#### FIRST YEAR

Practice work is given in the following stitches, until they are made satisfactorily for sample book, basting, overcasting, running, back stitch, turning hem, mitering corners, patching, matching stripes on the straight and bias, darning both stockings and cashmere, button holes, sewing on hooks and eyes, loops and eyelets, various fancy stitches, together

with drawn work and samples of different pieces of underwear. These samples are to be pressed and placed in a book with written instructions, passed in to the instructor for inspection. Each one must do one piece of practice work such as corset cover, shirt waist or laundry bag with a monogram and one kimono.

#### SECOND YEAR

The study of the sewing machine and the use of the different attachments, drafting patterns for a suit of underwear of five pieces, corset cover, drawers, long and short petticoat and night dress, and one gingham dress which is to be cut, fitted and finished. Study of measurements and general practice work in the sewing room.

#### THIRD YEAR

Study of measurements, drafting, draping and fitting. One linen dress, one fancy thin dress, one fancy silk shirt waist, one plain woolen skirt, the study of materials and the harmony of colors.

#### FOURTH YEAR

One heavy woolen dress or coat suit, drafting of a tight fitting lining pattern. One fancy afternoon or evening dress made with a tight fitting lining. All must have general practice work in drafting, draping and fitting before receiving certificates.

**No article made in the Sewing Department shall be taken out without permission from teacher.**

---

### MANUAL TRAINING AND CARPENTRY

In the course of carpentry a small deposit is required to be made to the registrar to cover breakage and loss of tools. It is the object of this course to give the best practical instructions in designing and construction. Each student is given a complete set of tools for which he is held responsible during the year. He should, however, provide himself

with a serviceable apron or suit of overalls to protect his clothes.

During the first year he is taught the name and use of the different tools, correct working positions and the adjusting and sharpening of the different parts. The first exercises are made from models and then models and drawings. It includes a variety of the different joints used in constructions and cabinets.

Review on the English measure, brads and nails, glue, burnt umber, shellac, varnish, and an outlined study of the woods will be topics for study.

The second year models will be made from drawings alone. From this time on, the student will be expected to work from regular working drawings.

---

### DEPARTMENT OF AGRICULTURE

It is the object of this department to give thorough, practical instruction in various subjects underlying successful farming, such as plant life, nature of soils, fertilizers, method of tillage, drainage, feeding, breeding, plant and animal diseases, insect, bacteriology, dairying, farm machinery general farm management, etc.

The theory of each subject taught in the class room is put to actual test on the school farm, which contains about one hundred acres in a fine state of cultivation, with stock, improved farm machinery and every facility for giving the best possible training to those interested in practical farming. Truck farming is studied with special care—as that branch is destined to become the most profitable for colored boys of the South. The course of study will be found in connection with the other subjects.

## ENROLLMENT OF STUDENTS—1916

## SENIOR CLASS

Myrtle Olivia Petty.....Roaring River, N. C.

## SENIOR MIDDLE CLASS

Nettie L. Bost.....Kernersville, N. C.  
 Elizabeth Dorsett .....High Point, N. C.
